MISSION! CODING!

*Problem Solving
Skills To
Increase Your
Creativity!*

Hello, Cubroid World!

Beginner

Age 4 ~ 6

How to use Cubroid

1 Getting started with Cubroid STEP

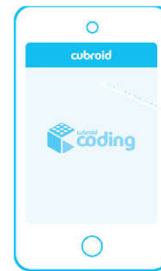

Push the Power button

First turn on the block.

2 When Connecting to an ios Device STEP

Connecting
via
Bluetooth

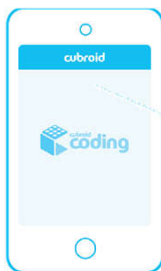

Download and install Cubroid app() and Cubroid Manager App() from the App Store.

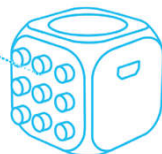

Turn on the Bluetooth on your iOS-based device (iPhone or iPad) and bring the blocks you want to use close to your device.

3 When Connecting to an Android Device STEP

Connecting
via
Bluetooth

Download and install Cubroid app () and Cubroid Manager App() from the App Store.

Turn on the Bluetooth on your Android-based device (smartphone or tablets) and bring the blocks you want to use close to your device.

4 Using other Coding Blocks STEP

Light Touch Block

Proximity Sensor Block

Sound Block

DC Motor Block 1

DC Motor Block 2

LED Block

Master Block

Let's start coding with Cubroid.

Check out our YouTube Channel

Search for "Cubroid" on YouTube, and subscribe.

Enjoy various contents on how to install the Cubroid app and so much more!
